

HAAN FS-20 Steam Cleaning Floor Sanitizer

Product Description

The HAAN Model FS-20 Steam Cleaning Floor Sanitizer is a lightweight — just under 4 lbs with a full tank — and ergonomically designed dynamo that harnesses the awesome power of steam to easily clean and sanitize any sealed hard floor surface including hardwood, laminate, vinyl, ceramic, linoleum, marble, slate, and more.

Turn it on and in less than 3 minutes it will begin emitting continuous steam at a temperature in excess of 212°F, killing dust mites, germs and bacteria, including e.coli and salmonella, virtually on contact. The HAAN Floor Sanitizer uses nothing but tap water and will run for 20 minutes without a refill so you can clean all of your hard floors in one quick session.

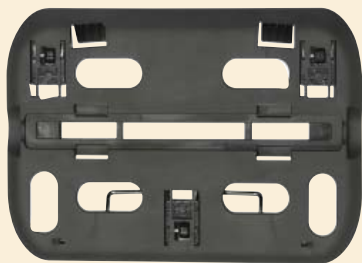

The patented super-absorbent, multilayer Ultra-Microfiber cleaning pads are engineered to reduce friction and dry floors instantly. HAAN's hook and loop system allows for the touchless attachment and removal of the cleaning pads and they can be machine washed and reused over and over again.

The HAAN floor sanitizer is engineered to outperform every steamer in its class — actually, every steamer in *any* class. Using superior quality materials and stringent manufacturing practices results in durability beyond the highest of expectations. It's no wonder this HAAN floor sanitizer has received an extraordinary reputation from word-of-mouth testimonials alone.

FS-20

The Sanitizing Tray

For sanitizing carpets, upholstered furniture and bedding, the Deluxe Sanitizing Tray clips onto the FS-20. To kill bacteria, germs and dust mites, simply glide the sanitizer across the surface. The sanitizing tray can be included with the sanitizer or offered as an accessory.

Included with Every Model FS-20 Floor Sanitizer

- 2 Multilayer Ultra-Microfiber Pads
- 1 Heavy-Duty Resting Pad
- 1 Measuring Cup
- Product Manual
- Warranty Card

HAAN Corporation
